

Avoca beach Preschool

Background

Effective supervision is critical to the safety and wellbeing of children while they are being educated and cared for at early education and care services, including while on planned excursions. The requirements of effective supervision are detailed in the Early Education and Care National Regulations 2011 and the Guide to the National Quality Standard 2011. They address matters such as the number of educators, their qualifications and experience, their level of involvement with the children, regular checks of the physical environment and risk analysis, and the need for communication between team members.

Policy statement

This Policy details how the Service ensures children are effectively supervised at all times.

Strategies and practices

- The design and layout of the Service, including the entrance, perimeter fence and gates, have been approved under the Building Code of Australia and meet all other regulatory requirements. They enable visual supervision of children at all times without compromising the children's dignity and rights.

It isn't only about seeing children but also listening carefully to children and noting any changes of tone or volume in their voice. Noting these changes can assist in supervising children who may not be in direct vision

- The Nominated Supervisor ensures that educators consider supervisory line-of-sight whenever they arrange the furniture and equipment in the indoor and outdoor play spaces.
- Educators need to consider how their position will influence children's agency. Where the educator decides to supervise could potentially inhibit their risk-taking independent exploration.
- Educators conduct daily safety checks of the building, equipment and general environment, and take any corrective actions necessary (e.g. remove unsafe item) and /or inform the Nominated Supervisor of any matter requiring attention so that a risk assessment can be undertaken). Refer to the Service's *Safe Play Spaces Policy*.
- All educators employed at the Service possess qualifications which meet or exceed the regulations (e.g. academic, first aid, CPR, asthma and anaphylaxis, working with children check).
- Regularly scanning the outdoor environment and all children ensure that educators are aware of all children and risks in the outdoor environment.
- Educator-to-child ratios comply with regulatory requirements at all times. Educators under 18 years are always supervised. Students and volunteers are never alone with an individual child or group of children. Similarly, a carer working with a child under the Inclusion Support Funding Agreement is not given responsibility for other children.

Supervision

- Children are effectively supervised at all times. The supervision takes into account the number of children, their ages and abilities, the group composition and dynamics, the area of play, and the activity (e.g. water play). Educators are actively involved in children's play so are able to anticipate hazardous situations and to respond to children who become distressed for any reason. Educators inform other team members if they need to leave the area for any reason (e.g. collect a resource, go to the bathroom). Educators' rest pauses are taken when it is safe to do so.
- During staff meetings, educators discuss each other's experience, knowledge and skills, and the need to support one another to ensure that children are effectively supervised especially during shift changes. Additional educators are employed if the Nominated Supervisor deems it necessary for effective supervision.
- The Service has systems which ensure that all children are accounted for at all times. However, in the unlikely event that a child cannot be accounted for, the Nominated Supervisor is notified immediately **and the Regulatory Authority is notified within 24 hours of incident**. Refer to the *Service's Delivery and Collection of Children Policy*.
- Any excursions or routine outing is conducted according to the *Service's Excursion Policy*. A detailed assessment, including a visit to the proposed site, is conducted and documented, and the result communicated to parents before seeking written parental permission. Only those children who have written permission are included in the excursion. Educator-to-child ratios are maintained and include educators with current first-aid and CPR qualifications, and asthma and anaphylaxis training.
- On arrival each day, parents are asked to communicate any information about their child that will assist the educators to ensure their child's wellbeing and to support consistency between the child's experiences at home and at the Service. For the same reasons, parents collecting their child are encouraged to ask educators about their child's day.
- Every child in care in the Service is signed in on arrival and signed out on departure. On arrival and departure, the accompanying adult must print their full name, enter the time and sign the Attendance Record Sheet. Educators check this sheet once the majority of children have arrived and note any children who are present but not signed in.
- In the event of an emergency evacuation or lockdown, the Attendance Record Sheet is used to ensure all children at the Service are accounted for. Refer to the *Service's Evacuation and Lockdown Policy*.
- A child is only released into the care of a parent or an authorised nominee listed in the enrolment form, or to an adult who has been given written authorisation by the parent or authorised nominee. Photo ID is necessary. In the event of an adult without photo ID seeking to collect a child, the Nominated Supervisor will contact the child's parents to confirm the person's identity (e.g. by asking the parent who is collecting their child today and asking them to describe the person). Educators have access to the details of all people authorised to collect children. These details are updated every six months or at any time a parent provides new information.
- A child is never released to anyone under the age of 16.

Supervision

- Families need to provide the Service with a copy of any court orders, parenting orders and parenting plans relating to their child or to access to the child. These are kept on the child's file, and immediately accessible.
- All visitors are to complete the Students, Volunteers and Visitors Sign-in Sheet. Details to be provided are the date, printed name, address and telephone number, brief reason for visiting, time in and time out, and to sign. All staff sign the time book. Refer to the Service's *Students, Volunteers and Visitors Policy*.
- Sleeping children are supervised in accordance with the *Service's Sleep and Rest Policy*. Sleeping children are always within sight and hearing distance of an educator. Educators are present in the room and every 10 minutes closely check each sleeping infant's breathing and colour and initial the Sleep and Rest Register. Unwell children are checked more frequently.
- Educators follow the Service's Nappy Change Procedure when changing nappies. Physical contact is always maintained when a child is on the change table. Refer to the Service's *Nappy Change and Toileting Policy*.
- At the end of each day, educators check all beds and the premises including outdoors and indoors to ensure that no child remains on the premises after the Service closes. In the unlikely event of a child being mistakenly locked in the Service, the Regulatory Authority would be notified within 24 hours.

Responsibilities of parents

- To sign the Attendance Record on arrival and departure of the child.
- To ensure the name and contact details of the authorised nominee(s) listed in the enrolment are current.
- To provide the Service with a copy of any court orders, parenting orders and parenting plans relating to their child or to access to the child.

Policy review

The Service encourages staff and parents to be actively involved in the annual review of each of its policies and procedures. In addition, the Service will accommodate any new legislative changes as they occur, and any issues identified as part the Service’s commitment to quality improvement. The Service consults with relevant recognised authorities as part of the annual review to ensure the policy contents are consistent with current research and contemporary views on best practice.
